Struktur Drawer app/main-apps/_layout.jsx

Parameter antar screen

```
const BookList = ({ books }) => {
  const router = useRouter();

  const handleDetailBook = (id) => {
    router.push(`/books/${id}`);
  };

  return (
    <View style={styles.book_grid}>
      {books.map((book, index) => (
        <TouchableOpacity
          key={index}
          style={[styles.book_card, styles.shadow]}
          activeOpacity={0.7}
          onPress={() => handleDetailBook(book.id)}
        >
          <BookItemImg book={book} />
          <BookItemContent book={book} />
        </TouchableOpacity>
      ))}
    </View>
  );
};
```

Kode components/books/detail.jsx

```
